**Description**

This document collates the strategies, regulations and guidelines relating to assessments and applies to all taught provision at the University and its Collaborative Partners.  

A summary of changes to this document appears on page 2.
## SUMMARY OF CHANGES

This list summarises the changes since 2016/17. The date confirms when the changes were implemented.

<table>
<thead>
<tr>
<th>Date</th>
<th>Changes</th>
</tr>
</thead>
</table>
| 31 August 2019| 1. Module Description - remove reference to Formative Assessment, remove reference to assessment criteria (B4)  
                        2. Update references to note cessation of Programme Committee meetings  
                        3. Remove references to personalised marking and personalised feedback. Update to note introduction of anonymous marking for written work (C2, C6, C7, Appendix 6, removal of Appendix 7)  
                        4. Clarification of wording regarding Academic Appeals (F)  
                        5. Removal of outdated section on Grade Descriptors (Appendix 2)  
                        6. Appendix 7 added – Assessment Criteria |
| 16 May 2019   | 1. Explicit reference to the fact that an IS and an EIS refers to the module and not simply an assessment called IS or EIS. (B3, B5, B8, B9, B10, B12, C5 and D4  
                        2. Include maximum word count for level 3 and reduce maximum word counts for levels 4 – 6 (B3)  
                        3. Adding learning outcomes and assessment criteria to the list of items to be included in the Module Description (B4)  
                        4. Amendments to the periods allowed for marking time and deadlines for the return of work to students (C4-5)  
                        5. Personalised feedback for assessments clarified (C6)  
                        6. Format and purpose of feedback clarified (C7)  
                        7. Requirement for double marking clarified (Appendix 6 paragraph 6.7) |
| 1 September 2018| 1. eSubmission guidance revised and moved from Appendix 6 to Section B, following the decision to require coursework to be submitted electronically.  
                        (Following the removal of Appendix 6, Appendices 7 & 8 have been renumbered as 6 and 7 respectively)  
                        2. Compensation is automatic if the student meets the criteria and may include a Core module if the student is transferring to a programme which does not require the module to be Core. (D4)  
                        3. Retention of students’ work to be used as ‘exemplars’ to be formally requested in all cases, including Master’s dissertations. (B16)  
                        4. Baseline requirement for marking practical assessments, which are not available for post hoc scrutiny changed to single marking with AV recording or double marking with option for AV recording. (Appendix 7) |
| 17 January 2018| Reduction of moderation samples from 20% to 10% (Appendix 7) |
| 1 September 2017| Introduction of Grade Point Average (GPA) |

SECTION A  INTRODUCTION AND CONTEXT

Section A1  Introduction/Scope

The assessment regulations set minimum requirements and standards for students and staff. They collate the strategy, regulations and guidelines relating to assessments, including the definition of assessments types and formats, the relationship between programmes and assessments, marking schemes, award calculations and classification methods.

The Assessment Regulations apply to all taught provision of the University of Winchester and to all students undertaking that provision whether at the University of Winchester or at a Collaborative Partner, unless specifically exempted by Academic Regulations, Policies and Procedures Committee (eg disallowed under accreditation agreements with Professional, Statutory and Regulatory Bodies).

Alongside the Regulations, the University operates a wide range of institutional policies and procedures. Key aspects of these policies and procedures are incorporated within the Regulations and reference is made there to the full policy or procedures below:

- Academic Appeals Regulations
- Academic Misconduct Policy
- Academic Regulations for Taught Programmes
- Academic Regulations for Postgraduate Research Programmes
- Accessible & Inclusive Learning Policy
- Exam Regulations
- Conduct of Exam Boards for Taught Programmes including Collaborative Partners - Guidelines
- Extenuating Circumstances Policy
- External Examiners of Taught Programmes - Policy and Procedures
- Invigilation Policy
- Learning and Teaching Strategy
- Master’s Dissertation – Presentation Guidelines

Section A2  Exemption from and Suspension of the Regulations

In exceptional circumstances, a programme or subject may seek an exemption from one or more of the Regulations, normally at the time of validation or revalidation. Application to do so shall follow appropriate consultation with other programmes and subjects as required, and must be made explicit at the time of validation or review and shall be explicitly approved by the Academic Regulations, Policies and Procedures Committee. Approved exemptions will be noted in the Programme Specification.

In exceptional circumstances, and following appropriate consultation, a programme or subject may seek to obtain formal approval through the Academic Regulations, Policies and Procedures Committee to suspend one or more of the Regulations temporarily. Where this approval is secured, students shall be explicitly notified before implementation. (An example of this might occur where a programme is running out or an external event prevents the normal procedures to apply.)

SECTION B  DEFINING ASSESSMENTS AND SUBMISSION REQUIREMENTS

Section B1  Defining Assessments

All assessments will be defined in the Module Descriptions, which accompany the Programme Specification approved at (re)validation or via the Programme Amendment process, defined by Senate Academic Development Committee.

The content and structure of the programme and its assessment strategy provide students with the opportunities for learning and assessment they need to enable them to demonstrate that they have met the programme learning outcomes.

When setting assessments, programmes shall take into account the educational aims and intended learning outcomes of a particular programme and module, as well as what can reasonably be expected of students...
at a given ‘level’, the purpose of the assessment (including whether it is for formative or summative purposes) and practical considerations such as group size, space and resources.

The language of learning, teaching and assessment shall be English except in the case of Collaborative Partners, who have obtained a specific exemption within their Memorandum of Agreement.

Students shall not submit the same assessment for two or more modules even if they are repeating the module. Where students wish to reuse some work from one assessment in another, they shall self-reference, as appropriate.

Students are responsible for keeping a copy of all submitted work including copies of all research data and materials prepared for the assessment in question even if they are not required to be submitted.

Assessment types and forms, including formative and summative forms, are designed and proposed by Programme Teams and approved via (Re)Validation. Programmes are encouraged to consider both traditional and innovative assessment types when determining their overall assessment strategy.

The Programme shall describe each assessment type in their Programme Specification, especially any which are distinctive, and indicate the appropriate category for each one.

Section B2 Assessment Load for Modules

The maximum word counts for written coursework submissions for modules at level 4 – 7 inclusive are as follows:

- Level 3 normally no more than 150 words per credit
- Level 4 normally no more than 200 words per credit.
- Level 5 normally no more than 250 words per credit
- Level 6 normally no more than 250 words per credit
- Level 7 normally no more than 200 words per credit

Section B3 Word Counts for Individual Assessments

A word count is normally required for written coursework and is a guide to students and staff about what is expected for each assessment.

Masters Independent Study module as specified in the relevant Programme Specification but normally between 15 – 20k for a module of 60 credits.

Extended Independent Study module as specified in the relevant Programme Specification but normally between 8 - 10k for a module of 30 credits.

In setting a word count, the programme shall take into account:

a) the assessment criteria;
b) the range of issues expected in an answer;
c) the expected depth/breadth of the answer;
d) the need to encourage students to write succinctly and clearly;
e) the need to ensure equity for all the students completing the assessment.

Word counts shall not be used as word limits and, therefore, there is no University-wide policy for penalising students who undershoot or exceed word counts. If programmes wish to set a word limit, then they shall follow the Guidelines in Appendix 4 for Setting Word Limits and Penalties.

Section B4 Assessment Pattern in Module Description

A student’s achievement in each module shall be assessed so that a student may be awarded a final mark and/or grade for each module. (For example, some module assessment patterns may be graded Pass/Fail only). If an assessment covers more than one module a separate final mark shall be awarded for each module.
The Module Description shall define:

a) name of assessment type
b) word count for written assessments and duration for exams/practical assessments
c) weight of the total mark for each assessment as a percentage or whether one or more elements are graded Pass/Fail only
d) whether any element graded Pass/Fail only must be passed in order to pass the module overall
e) whether a minimum pass mark is required for each assessment or whether the module may be passed on aggregate
f) the module’s learning outcomes

Section B5 Format and Submission of Assessments

Students are notified of assessments via a Module or Programme Handbook made available to students online and/or in hard copy at the beginning of the module.

It is the responsibility of the student to submit all work for assessment and all attend practical assessments and exams in accordance with the requirements for each module or programme, as defined in the Programme/Module Handbook. The format of the Dissertation for a Masters’ Independent Study module is defined in the Master’s Dissertation – Presentation Guidelines.

Coursework shall be submitted electronically via Canvas or Turnitin, as directed by the Programme.

If both an electronic and a hard copy submission are required (for example, the Extended Independent Study module or the Independent Study module) the time and date set shall be same for both and shall normally be set between 9.30 am and 3.30 pm on weekdays.

Where students are required to submit work in hard-copy to a Faculty Office, a receipt shall normally be issued. Where a receipt is issued, the student is responsible for retaining this as proof of submission.

See also paragraph B9 below for more details about Timing of assessments.

Section B6 Submission Requirements

Programmes shall normally specify their expectations/requirements, e.g. whether files shall be submitted in a particular format or whether they shall have a marking grid attached. Normally, this shall include standard Microsoft Office formats, as well as PDFs. Programmes shall also clearly state the penalties or criteria that will apply for work that does not meet clearly articulated programme requirements.

Unless specified otherwise, work should be formatted as follows:

a) Calibri font, size 11, black type (no colours)
b) 1.5 line spacing
c) 2.5 cm margins
d) Page numbered throughout

Students are responsible for uploading their own work and shall check that their work has uploaded correctly:

a) In Canvas, students should check for the ‘Turned in’ receipt and check content;
b) In Turnitin, students should download a digital receipt as proof of submission.

If a student wishes to resubmit an assessment in order to make changes, additions or corrections, they may only do so before the submission deadline.

Section B7 Problems Uploading Assessments

If students are experiencing problems uploading their assessment to Canvas or Turnitin, they must contact Canvas Support, who can either assist or provide evidence of a technical issue if the problem cannot be
resolved before the deadline. Evidence from Canvas support may be permitted in cases where the student wishes to seek an extension due to delayed submission due to technical issues related to Canvas.

Section B8 Penalties for failing to meet submissions requirements

Late Submission Rule

All assessments, including those for the Independent Study module and the Extended Independent Study module, submitted up to five working days after the deadline (i.e. one week late) shall be accepted as a first attempt but the substantive mark shall be capped at the minimum pass mark. Any work submitted after the one-week late submission deadline and before the deadline for permitted second attempts shall be accepted as a second attempt, capped at the minimum pass and there shall be no further opportunities for submission.

Second attempts submitted after the deadline, without approved extenuating circumstances, shall be deemed a fail and given a mark of 1% only, to indicate submission.

Refer to Appendix 5 - Submission Processes Flowchart for further details.

Submission

A fail grade and mark of 1% shall be imposed as a penalty in the following circumstances:

a) Corrupt, illegible or incorrect file format submitted: this includes a file that cannot be opened directly
b) Wrong assessment submitted

Where a problem is identified before the due date for submission has passed, the student may resubmit the work. If the problem is identified following the deadline, the assessment shall be graded as a Fail and given a mark of 1% to indicate submission only.

If a student has submitted work to the wrong module on Canvas but they have made a bona-fide attempt, and can submit valid evidence in proof of that, the submission should be accepted. Consideration of the case and evidence is an academic responsibility.

Incorrect presentation

Marks shall normally only be deducted if presentation is specified within the marking criteria, for example incorrect text format.

Section B9 Timing of assessments

Assessment shall normally take place during the semester in which the module is offered although some semester 1 modules may be assessed early in semester 2 and where a semester 1 module is linked with a semester 2 module, a common or joint assessment may be held anytime during semester 2, up to week 15.

Submission deadlines shall normally be set for any date or time within semester weeks, i.e Weeks 1 - 12 in semester 1 and Weeks 1 - 15 in semester 2. This is to allow the appropriate support for the students to be in place. However, if programmes want to set a deadline outside their normal teaching and assessment periods, i.e. during the Christmas or Spring vacation period, they must seek explicit approval for each assessment from Faculty Academic Development Committee meeting during the previous academic year. Where unanimous agreement is confirmed, the new arrangement shall remain in use unless the Programme decides to move the deadline back to the established teaching and assessment periods.

Exceptions to the above may be approved for students who are granted an extension or deferral due to extenuating circumstances or where the programme has an exemption from the Regulations to teach outside the semester periods or extend the module across two academic years.

The major assessment for Independent Study module (for Masters Programmes) shall be submitted on the following dates of the student’s intended final year of study as follows:
a) For students who initially registered for their programme in October, the deadline shall be the last working day of September;

b) For students who initially registered for their programme in January, the deadline shall be the first working day of February;

Thus a full-time student will submit at the end of their first year of study; a two-year part-time student shall submit at the end of their second year of study and a three-year part-time student shall submit at the end of their third year of study.

The date of submission and return of work shall be recorded in the Module/Programme Handbook (as appropriate). The date for second attempts and return of work shall also be recorded.

Where a PSRB requires a programme to hold exams for modules run in semester 1, these shall be scheduled by Registry during week 12. Formal exams held at the Winchester campus for other programmes are normally centrally timetabled and arranged by Registry during the Assessment Period of semester 2, although programme may opt to hold locally-organised exams during semester 1.

Section B10 Deferrals and extensions for assessments

Deadlines for all assessments may only be extended by a previously agreed extension: no substantive mark may be awarded for late work for which no extension has been agreed.

Students may apply for a deferral (for exams and practical assessments) and/or an extension (for coursework) using the approved form and submit it together with written evidence of extenuating circumstances, supported by a disinterested person of demonstrable professional standing in relation to the type of evidence, in accordance with the Extenuating Circumstances Policy.

Where an extension request for the major assessment of the Independent Study module would result in missing the deadline for marks to be considered at the Exam Board, the extension shall normally be extended to the next scheduled submission date for Independent Study modules, i.e. either the first working day of February or the last working day of September.

Where an original assessment cannot be replicated, for example in the case of group work, the programme has discretion to set an alternative assessment subject to the maintenance of the purposes of the original assessment and module learning outcomes.

Refer to the University’s Extenuating Circumstances Policy for further details.

Section B11 First Attempts at Assessments

All students are expected to submit their assessments and sit exams and practical assessments as set by the programme. Marks awarded for first attempts that are submitted on time shall be a substantive mark between 0 – 100% or graded Pass/Fail only.

Section B12 Second Attempts at Assessments

Students shall normally be permitted an automatic second attempt for all failed first attempts. Deadlines for second attempts are normally determined by the programme. Deadlines for second attempts for semester 2 modules and the Extended Independent Study module are normally scheduled during the summer vacation period. Resits for semester 2 exams are normally held in mid-July.

Where a student fails an element of assessment they shall normally be permitted a second attempt, on condition that they have satisfied any other specified requirement(s) for the module. The second attempt shall normally be capped at the minimum pass mark for that level, eg 40% for levels 3 – 6 and 50% for level 7.

The better mark of the two attempts shall be included in the calculation for the overall module mark.

1 Students who are pregnant or are shortly due to become a parent should refer to the Pregnancy, Adoption and Becoming a Parent While Studying - Guidelines.
Where a student fails an element of assessment and has not satisfied any specified requirement(s) for the module, the student shall not have the automatic right to a second attempt. However, the Exam Board has discretion to permit a second attempt.

For a second attempt at written coursework, a student shall normally be required to resubmit the original assignment. A resit for an exam or a practical assessment may be based on a new exam or practical assessment. However, if repeating the original assessment is not feasible or practicable, the programme may opt to set an alternative assignment, subject to the maintenance of the purposes of the original assignment and module aims. This may include setting one alternative assignment to meet the learning outcomes of two of more of the original failed elements of assessment.

Where a module only requires students to achieve an overall aggregate pass, a student who has achieved the overall pass but has failed an element shall not normally be required to pass that element via a second attempt. However, the student may ask the Exam Board for permission to submit a second attempt for a failed element if an opportunity has not already been offered. The deadline for such requests shall be within 15 working days of the date of the letter confirming the decision of the Exam Board.

Section B13 Adapting assessments for students transferring in or out of modules mid-year

Students who transfer mid-year and need to join/leave year-long modules, especially in the case of students involved in the American Exchange and Visiting Programmes and all full-time students, require careful management to ensure that they are not left short of credits at the end of the academic year.

Programme Leaders, for all subjects involved, and the student concerned have a collective responsibility to ensure that they are aware of how the transfer is being managed and that the process will ensure that the student will complete the requisite number of credits for their studies at the University of Winchester for the academic year in question.

Refer to Appendix 3 for In-Year Transfers and Credit Issues for Year-Long Modules for further details.

Section B14 Adapting assessments for students with protected characteristics

The interests of students and/or protected characteristics shall be taken into consideration and reasonable adjustments to assessments shall be made provided that these do not compromise academic standards as expressed through the learning outcomes. See also the Pregnancy, Adoption and Becoming a Parent While Studying- Guidelines.

Section B15 Students with a temporary or permanent disability, chronic illness or additional need

The University encourages students to disclose any disability or additional need at pre-entry, enrolment or during the period of their study. Students, who have formally notified the University of a disability, condition or chronic illness, shall normally have agreed a formal Learning Agreement with Student Services and academic staff to provide additional support for learning and assessment.

Where the student’s disability is of a temporary nature or the result of an emergency e.g. a broken bone, a Learning Agreement may be approved for a specified time period.

A Learning Agreement shall be arranged on an individual basis as a reasonable adjustment for students who may otherwise be disadvantaged by a temporary or permanent disability or additional need, whether temporary or permanent, provided that this does not compromise the validity of the assessment or assessment methods. Any alternative assessment method that is approved shall be capable of assessing the same learning outcomes by alternative means and capable of being implemented, within the provisions available to the University.

Where students require a deferral or extension for an assessment or simply wish to inform programmes of their extenuating circumstances, they should do so in accordance with the Extenuating Circumstances Policy.

Refer to the Learning Agreements Policy and Exam Regulations for further details.
Section B16  Retention of students’ assessments
Where Programmes wish to retain an assessment by an individual student as an exemplar for other students, they shall obtain written permission from the student concerned. Work retained in this way shall normally be disposed of after five years.

SECTION C  MARKING AND MODERATION PROCESSES

Section C1  Marking Assessment
All assessments will be marked with reference to the University’s generic Assessment Criteria which are aligned to the Framework for Higher Education Qualifications (FHEQ).

All marks and grades for modules at L3 – 8 inclusive are provisional until confirmed by an Exam Board, usually held at the end of the academic year or 12-month period of study.

Please refer to Appendix 2 for a full range of the marks and grades used by markers when grading work as well as the grades used on transcripts to indicate the status of modules, where the final outcome is pending or the module has not been passed.

Section C2  Marking process
Where possible all summative assessments will be marked anonymously.

Markers shall record a substantive mark on all assessments, even if they know that the mark for an assessment shall be capped. This provides feedback to the student and is also required if a student were to successfully appeal against an Exam Board decision to cap a mark and subsequently be awarded a substantive mark.

Section C3  Moderation: Internal and External
Internal moderation is a process separate from that of marking and provides assurance that assessment criteria have been applied appropriately, reflecting the shared understanding of the markers.

External moderation is achieved via scrutiny by External Examiners of assessments, marking criteria and processes and Exam Board processes. For details of the sample of work to be seen by External Examiners, please refer to the External Examiners of Taught Programmes – Policy and Procedures.

Additional internal and external scrutiny is also effected by (re)validation of programmes when programmes, learning and teaching and assessments are reviewed by a panel of internal academic staff and students and external academics and professionals.

Please refer to Appendix 6 for regulations governing the process of moderation, reconciliation of marking differences and how students may lodge an appeal concerning the marking and/or moderating process.

(NB Students cannot appeal against the academic judgement of a marker.)

Section C4  Marking time and return of work to students
Marking of student work is an activity which is a normal part of the duties of academic staff. It is not driven by the semester dates which apply to student attendance and shall not be delayed by student vacation periods.

All summative assessments shall be marked and returned to students within 15 working days of the published submission date. Moderation must be completed within five working days of this deadline, if it has not already taken place.

The only exceptions to this are:

a) work which is double-marked such as undergraduate final year dissertations which shall be marked and returned to students within 20 working days of the published submission date.
b) the Master’s Independent Study which shall be marked and returned to students within 30 working
days of the published submission date.

c) where students are on placement, the programme may return the work after the placement has
been completed;

d) assessments which are being investigated following an allegation of poor academic practice or
academic misconduct. If the investigation is still on-going at the point when the assessment is due
to be returned, the Academic Conduct Officer shall inform the student that the work is being
investigated in accordance with the Academic Misconduct Policy;

e) in cases of staff illness, the Department shall publish a deferred return date at the earliest
opportunity. Where staff illness continues for more than 10 working days, the Department shall
investigate alternative markers.

A sample of work is normally sent to the External Examiner within 10 working days of the mark and
feedback being returned to students.

NB: Working days refers to weekdays with the exception of days when the University is closed as a result of
English bank holidays or University statutory and closure days (e.g. period between Christmas and New
Year).

Section C5  Feedback – format and purpose

Feedback shall be provided via Canvas and may be written or use audio/visual software.

In addition to feedback on individual assessments Programmes may provide feedback via:

 a) discussion in class;
 b) generic feedback delivered electronically via Canvas.

Students may also ask to discuss feedback on their work or seek clarification in person from the module
leader or marker(s).

Section C6  Queries about marks transcription errors or marking procedures

Queries about marks, feedback, transcription errors or marking procedures should be raised at the time of
the assessment or as soon as possible after assessments are returned.

Students cannot request that an assessment be remarked, moderated or submitted to the External
Examiner.

Section C7  Academic misconduct, including plagiarism and poor academic practice

Where a marker or student believes that they have identified an instance academic misconduct the marker
shall investigate the matter fully in accordance with the Academic Misconduct Policy and the student shall
pass the relevant details to their Faculty Office or the RKE Centre who shall refer the matter to an Academic
Conduct Officer.

SECTION D   AWARD CALCULATION PROCESSES AND EXAM BOARD PROCESSES

Section D1  Calculation of module results

The mark for each assessment, entered on the University’s student record system (SITS), shall always be a
whole number. Where an assessment is made of two or more elements, each element shall normally be
entered separately on the University’s student record system (SITS) and the final mark shall be calculated as
an aggregate of the marks for all of the elements, based on the weightings shown in the module
description.

The rule for rounding to a whole number for assessments with multiple elements and for overall module
results calculated by SITS is as follows:
a) If first digit immediately following the decimal place is 4 or lower then no change is made to whole number and the numbers to the right of the decimal place are removed (thus 44.49 would become 44)

b) If the digit immediately following the decimal place is 5 or higher then add one to the digit to the left of the decimal place and all numbers to the right of the decimal place are removed (thus 44.51 would become 45)

Where a module is graded Pass/Fail only, no mark shall be allocated and the result will not contribute to the calculation for award classification.

Section D2 Award of Credit

Students are required to take modules in accordance with the pathway defined for their programme. Students are awarded credit for all modules for which they successfully complete the assessment and other specified requirements as stated in the Programme Specification and Module Description.

Where a student is permitted to retake a module, either via repeat study or trial fail, for which credit and/or marks have already been received, any previously received credit and/or marks shall no longer count as part of the student’s academic profile for the programme but will appear on the student’s transcript. The student is also required to attend and retake all elements of the repeated module(s) and submit new work for all assessments when they repeat study. However, a student may only be required to submit the assessments if they are permitted to trial fail without attendance. This shall be confirmed between the Programme and the student. See also Section C of the Academic Regulations for Taught Programmes for details about trial fails and assessment.

Students may apply to audit one or more modules but they shall confirm their intention to audit the module within two weeks of starting it. No credit may be given for audited modules, although they shall be recorded on intermediate and final transcripts. Approval for a student’s request to audit a module is at the discretion of the Module Leader.

Section D3 Calculation of awards, classifications and upgrade rules, exit awards

The Academic Regulations for Taught Programmes defines the credit requirements for awards and the award calculation rules. Programmes may set additional requirements that specific-named modules shall be included.

The method for calculating a final award shall be to calculate the result correct to a whole number, using the same rounding method as described above.

Section D4 Compensation

Except when forbidden by accreditation, the Faculty Exam Board will be able to compensate failure once at each level of a programme (excluding level 8), provided that the student has met the following conditions:

a) no more than one optional or mandatory module worth up to 20 credits has been failed at that level;
b) a module mark of no more than 10 marks below the minimum pass mark defined for that level has been achieved for the failed module;
c) all the other modules required to be taken for the programme at that level have been passed (with the exception of the Master’s Independent Study module);
d) the learning outcomes required for that level of study have been achieved (with the exception of those solely associated with the Master’s Independent Study module).

Additionally:

e) the module may be compensated whether or not the student is permitted a second attempt.²

² Suggested criteria are detailed in the Conduct of Exam Boards for Taught Programmes Including Collaborative Partners - Guidelines
f) a Core module may be compensated if a student is transferring to another programme and the new programme does not require the module to be Core

Compensation may not be applied for work that is not submitted, unless covered by valid evidence of extenuating circumstances.

The mark for the failed assessment(s) shall remain unchanged; instead the overall mark for the compensated module(s) shall be capped at the minimum pass mark and shall be clearly identified on the student’s transcript.

The student may elect not to accept the compensation and may request permission to submit a second attempt for the assessment or retake the module(s) for a substantive mark, provided that they have not already been offered an opportunity to do so. This might involve a repeat period of study. The deadline for such requests shall normally be within 15 working days of the date of the letter confirming the decision of the Exam Board.

Section D5 Compensation on Grounds of Extenuating Circumstances

The Faculty Exam Board has, in exceptional cases, wider discretion to compensate at all levels for failure due to extenuating circumstances where valid evidence has been received and where there is sufficient evidence from other assessments to satisfy the Departmental or Collaborative Partner Exam Board of the students’ understanding of the subject matter and that the student has met the learning outcomes of the module(s) affected.

Where an assessment mark is compensated on concessionary grounds, the assessment element shall be raised to the minimum pass mark appropriate to the level of the module without restricting the final mark for the module.

There is no limit to the number of modules that may be compensated on concessionary grounds as long as the Exam Board is satisfied that the student has demonstrated the ability to work at an appropriate level in the pathway for which they are registered and that they have met all learning outcomes. The advantage to the student is that they are not required to (re)submit or (re)take assessments or modules.

The student may elect not to accept the compensation and may wish to reattempt the assessment or retake the module(s) for a true mark. This might involve a repeat period of study.
APPENDIX 1 QUALIFICATION DESCRIPTORS

Qualification Descriptors

Each programme is required to provide a programme-specific qualification descriptor for the final award and any exit qualifications, associated with the programme, in their Programme Specification. These descriptors comply with the Qualification Descriptors defined by the QAA in The Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies in the UK Quality Code for Higher Education Higher Education Part A: Setting and Maintaining Academic Standards October 2014.

Descriptor for a Higher Education Qualification at Level 8

Doctoral degree graduates are required to meet this descriptor in full.

A Doctoral degree (Level 8 Qualification) is awarded to students who have demonstrated:

a) the creation and interpretation of new knowledge, through original research or other advanced scholarship, of a quality to satisfy peer review, extend the forefront of the discipline, and merit publication and/or public performance and other public dissemination.;

b) a systematic acquisition and understanding of a substantial body of knowledge which is at the forefront of an academic discipline or area of creative or professional practice;

c) the general ability to conceptualise, design and implement a project for the generation of new knowledge, applications or understanding at the forefront of the discipline, and to adjust the project design in the light of unforeseen problems;

d) a detailed understanding of applicable techniques for research and advanced academic enquiry.

Typically, holders of the qualification shall be able to:

e) make informed judgements on complex issues in specialist fields, often in the absence of complete data, and be able to communicate their ideas and conclusions clearly and effectively to specialist and non-specialist audiences

f) continue to undertake pure and/or applied research and development at an advanced level, contributing substantially to the development of new techniques, ideas or approaches.

And holders shall have:

g) the qualities and transferable skills necessary for employment requiring the exercise of personal responsibility and largely autonomous initiative in complex and unpredictable situations, in professional or equivalent environments.

Descriptor for a Higher Education Qualification at Level 7

Masters degree graduates are required to meet this descriptor in full.

A Masters degree (Level 7 qualification), is awarded to students who have demonstrated:

a) a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study, or area of creative or professional practice;

b) originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline;

c) conceptual understanding that enables the student to:

d) evaluate critically current research and advanced scholarship in the discipline;

e) evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses;

f) a comprehensive understanding of techniques applicable to their own research or advanced scholarship.
Typically, holders of the qualification shall be able to:

g) deal with complex issues both systematically and creatively, make sound judgments in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences

h) demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level

i) continue to advance their knowledge and understanding, and to develop new skills to a high level.

j) And holders shall have:

k) the qualities and transferable skills necessary for employment requiring:
   i) the exercise of initiative and personal responsibility
   ii) decision-making in complex and unpredictable situations
   iii) the independent learning ability required for continuing professional development.

Descriptor for a Higher Education Qualification at Level 6

Holders of a Bachelor’s degree with Honours are required to meet the descriptor in full. The descriptor may also be used as a reference point for other qualifications at level 6 including Pass degree and Graduate Diplomas.

Bachelor’s degrees with Honours are awarded to students who have demonstrated:

a) a systematic understanding of key aspects of their field of study, including acquisition of coherent and detailed knowledge, at some of which is at, or informed by, the forefront of defined aspects of a discipline;

b) an ability to deploy accurately established techniques of analysis and enquiry within a disciplines;

c) conceptual understanding that enables the student to:
   i) devise and sustain arguments, and/or to solve problems, using ideas and techniques, some of which are at the forefront of a disciplines;
   ii) describe and comment upon particular aspects of current research, or equivalent advanced scholarship, in the discipline;

d) an appreciation of the uncertainty, ambiguity and limits of knowledge;

e) the ability to manage their own learning, and to make use of scholarly reviews and primary sources (for example, refereed research articles and/or original material appropriate to the discipline);

Typically, holders of the qualification shall be able to:

f) Apply the methods and techniques that they have learned to review, consolidate, extend and apply their knowledge and understanding, and to initiate and carry out projects;

g) Critically evaluate arguments, assumptions, abstract concepts and data (that may be incomplete), to make judgement, and to frame appropriate questions to achieve a solution – or identify a range of solutions – to a problem;

h) Communicate information, ideas, problems and solutions to both specialist and non-specialist audiences;

And holders shall have:

i) The qualities and transferable skills necessary for employment requiring:
   i) the exercise of initiative and personal responsibility;
   ii) decision marking in complex and unpredictable contexts;
   iii) the learning ability needed to undertake appropriate further training of a professional or equivalent nature.
Descriptor for a Higher Education Qualification at Level 5

Holders of a Diploma of Higher Education or Foundation Degree are required to meet the descriptor in full. Diplomas of Higher Education and Foundation Degrees are awarded to students who have demonstrated:

a) knowledge and critical understanding of the well-established principles of their area(s) of study, and of the way in which those principles have developed;
b) ability to apply underlying concepts and principles outside the context in which they were first studies, including, where appropriate, the application of those principles in an employment context;
c) knowledge of the main methods of enquiry in the subject(s) relevant to the named award, and ability to evaluate critically the appropriateness of different approaches to solving problems in the field of study;
d) an understanding of the limits of their knowledge, and how this influences analyses and interpretation based on that knowledge;

Typically, holders of the qualification shall be able to:

e) use a range of established techniques to initiate and undertake critical analysis of information and to propose solutions to problems arising from that analysis;
f) effectively communicate information, arguments and analysis in a variety of forms to specialist and non-specialist audiences and deploy key techniques of the discipline effectively;
g) undertake further training, develop exiting skills and acquire new competences that will enable them to assume significant responsibility within organisations;

And holders shall:

h) The qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility and decisions making

Descriptor for a Higher Education Qualification at Level 4

Holders of a Certificate of Higher Education are required to meet the descriptor in full. Certificates of Higher Education (level 4) are to students who have demonstrated:

a) knowledge of the underlying concepts and principles associated with their area(s) of study and an ability to evaluate and interpret these within the context of that area of study;
b) an ability to present, evaluate and interpret qualitative and quantitative data, in order to develop lines of argument and make sounds judgments in accordance with basic theories and concepts of their subject(s) of study

Typically, holders of the qualification shall be able to:

c) Evaluate the appropriateness of different approaches to solving problems related to their area(s) of study and/or work

d) Communicate the results of their/work accurately and reliably, and with structured and coherent argument

e) Undertake further training and develop new skills with a structured and managed environment

And holders shall:

f) The qualities and transferable skills necessary for employment requiring the exercise of some personal responsibility

Descriptor for study at Level 3

Students who completed 120 credits of study at level 3 shall meet the descriptor in full.

Level 3 students have demonstrated the ability to:
a) Apply knowledge and skills in a range of complex activities demonstrating comprehension of relevant theories; access and analyse information independently and make reasoned judgements, selecting from a considerable choice of procedures in familiar and unfamiliar contexts and direct own activities, with some responsibility for the output of others

Typically, level 3 students will be able to:

b) Demonstrate an understanding of defined areas of the knowledge base
c) Demonstrate an awareness of current area of debate in the field of study
d) Demonstrate an awareness of the ethical issues in the main area of study
e) Relate principles and concepts to underlying theoretical frameworks and approaches
f) Carry out defined investigative strategies and communicate results effectively in a given format
g) Collect information to inform a choice of solutions to standard problems in familiar contexts
h) Analyse a range of information using pre-defined principles, frameworks or criteria
APPENDIX 2  MARK SCHEME FOR LEVELS 3 - 8

Pass Grades and Marks for Levels 3 – 8

Table 1  Pass Grades and the equivalent percentage mark range

<table>
<thead>
<tr>

</tr>
<tr>
<td>UP / UPQ</td>
<td>ungraded Pass for Pass / Fail modules *</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

* Ungraded Passes (UP) shall have no accompanying percentage mark.

A Pass grade immediately followed by a ‘Q’, eg ‘DQ’, ‘PQ’ or ‘UPQ’:

indicates a module which is an overall pass but which contains one or more assessments which have failed the qualifying mark for that assessment but the Exam Board has confirmed that the student has met the learning outcome(s) of the failed assessment(s) elsewhere.

A substantive mark:

reflects the student’s actual achievement and may be anything between 0 – 100%. A substantive mark is awarded for the first attempt at an assignment or exam (unless the assessment is graded Pass/Fail only). It may also be awarded for a second attempt if the student is deemed to have valid extenuating circumstances.

A capped mark:

is the mark awarded for a late submission or a second attempt following failure or non-submission. All work must be given an indicative mark but where the student is submitting a second attempt (following failure or non-submission) or repeating a module, the mark recorded on their transcript will normally be ‘capped’ at the minimum pass mark for that level. Where a module is to be capped, then each assessment for that module shall be capped before the overall module result is calculated, i.e. the University shall not aggregate the indicative marks and then cap the module result.

Other Grades

L indicates that this is a first attempt at an assessment, which has an approved extension and when the mark is received, it will be for a substantive mark

M indicates that this is a second attempt at an assessment, which has an approved extension but the mark may be for a substantive or capped mark (to be specified by the Exam Board).

R Indicates a failed assessment/module for which the student is permitted to submit a second attempt for a capped mark.

Q/QF This indicates a module which, although it has achieved an overall pass mark, contains one or more assessments which have failed the qualifying mark for that assessment (as detailed in the Module Description) and the student is permitted a second attempt to pass the failed assessment.

Q grades only apply to modules which have two or more summative assessments.
Q grades do not apply to modules passed on aggregate or modules with only one summative assessment.
assessment(s). For instance, some programmes set requirements for a minimum mark of 35% or 40% for each piece of assessment.

**QF** Indicates a module which is an overall pass but which contains one or more assessments which have failed the qualifying mark for that assessment and for which no second attempt is permitted.

The Departmental/Collaborative Partner Exam Board may replace the Q or QF grade with the pass grade appropriate to the aggregate mark, followed by a Q, if they are satisfied that the student has met the learning outcomes of the failed assessment(s) in one or more other modules at the same level or above. Where the Q or QF grade is changed to a pass grade, the pass grade shall be followed by the letter ‘Q’ as detailed in the table above.

(Because the compensation regulation only applies to modules with an overall mark below the minimum pass mark, modules with grade Q or QF cannot be compensated.)

**F** Indicates a failed assessment/module for which no opportunity for a second attempt exists.

**FA** Indicates a failed assessment/module due to an infringement of the programme-specific Attendance Rules. This grade shall normally only be applied where the attendance rules relate to a PSRB requirement or a Health & Safety issue.

**T** Transferred to another programme before completion of the assessment/module

**W** Indicates that a student withdrew from the module before completion.

**AP** Indicates that there is a case of alleged plagiarism against an assessment within the module. This code is only used when the alleged plagiarism is under investigation (refer to the University’s Academic Misconduct Policy for further details). If the alleged plagiarism is not proven, then the module grade will be changed to that appropriate to the aggregate mark by senior Registry staff.

**PR/PF** Indicates a case of plagiarism proven through the University’s Academic Misconduct Policy. Used only by senior Registry staff. (The assessment shall be given a mark 1% to indicate work was submitted.)

**CP** Indicates that the module was a compensated pass.

**CN** Indicates that one or more of the assessments for the module was compensated due to approved extenuating circumstances.

### Grade Point Average

Once the weighted mean average of module marks has been calculated, according to Award Calculation Rules defined in the Academic Regulations for Taught Programmes, this shall be converted to the equivalent grade point score to provide a cumulative Grade Point Average.

**Table 1** Grade point scores and the equivalent percentage mark range

APPENDIX 3    IN-YEAR TRANSFERS AND CREDIT ISSUES FOR YEAR-LONG MODULES

Resolving Credit Issues for In-Year Transfers

3.1 Full-time undergraduate students shall complete 120 credits each academic year. Part-time undergraduate students shall complete the modules for which they are registered by the end of week 2 of each semester.

3.2 Where the Programme deems it impossible to divide a year-long module, they shall make this clear to all parties and ensure that this is taken into account when responding to a student’s request to transfer. This may require a student to undertake additional study in order to transfer.

3.3 If a student is transferring mid-year, they shall complete all Semester 1 modules as originally registered (ie they shall complete assessments whether these are scheduled in semester 1 and/or 2 if the module itself runs only in semester 1).

3.4 Students who do not complete the module shall be deemed to have failed the module and this may mean that they are unable to proceed/graduate if they have an incomplete profile for the current academic year as a result.

Year-long modules with assessment split 50:50 over the two semesters

3.5 If the student is part-way through a year-long module, they shall agree with the PL, who owns the module, whether they shall either:
   a) complete that module and all assessments as scheduled in the module handbook; or
   b) be permitted to complete 50% of the assessment and be credited with half the normal credits for that module (eg 15 credits of a 30 credit module).

3.6 If the student wishes to transfer into a year-long module, they must agree with the PL, who owns the module, whether the student shall either:
   a) be required and supported to catch-up on missed teaching and complete the module and all assessments as scheduled in the module handbook; or
   b) be required and supported to complete 50% of the assessment and be credited with half the normal credits for that module (eg 15 credits of a 30 credit module).

Year-long modules with assessment split unevenly over the two semesters

3.7 Where a module does not split the assessments evenly over the academic year, the Programme Leader, who owns the module, shall decide whether the student shall either:
   a) complete the module as required in the module handbook; or
   b) be given an individually customised assessment to enable them to complete 50% of the assessment load and be credited with half the normal credits for that module (eg 15 credits of a 30 credit module).

Customised Assessments

3.8 Customised assessments may be set to enable students leaving a module at the end of the semester 1 to be assessed on teaching and learning covered in semester 1 only. Students joining a module at the start of semester 2 should be assessed on teaching and learning covered in semester 2 only. Where necessary, programmes shall ensure that additional support is provided if work covered in semester 1 is necessary to the students’ future studies.

   For students joining a module, additional formative assessments could be used to enable the student to become familiar with the subject/programme before completing a summative assessment.
Setting Customised Assessments: Example

Module has 3 assessments:

<table>
<thead>
<tr>
<th>Assessment</th>
<th>Due Date</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ass 1</td>
<td>Week 10 of S1</td>
<td>30%</td>
</tr>
<tr>
<td>Ass 2</td>
<td>Week 6 of S2</td>
<td>30%</td>
</tr>
<tr>
<td>Ass 3</td>
<td>Week 14 of S2</td>
<td>40%</td>
</tr>
</tbody>
</table>

Leaving this module: option A

A student leaving the module at the end of S1 might have already completed Ass1 and be set a customised assessment weighted 20% to be submitted at the end of S1 or early in S2.

Total assessment weighing = 50%. If passed, the module is credited to the student’s profile with half the normal credits.

Leaving this module: option B

A student leaving the module at the end of S1 who has not already completed Ass1 would be set a customised assessment weighted 50% to be submitted at the end of S1 or early in S2.

Total assessment weighing = 50%. If passed, the module is credited to the student’s profile with half the normal credits.

NB Care needs to be taken that the student is not unduly advantaged if feedback is given on Ass1 before they have submitted their customised assessment.

Joining this module: option A

A student joining the module at the end of S1 would be set a customised assessment weighted 10% to be submitted in week 6 when other students are submitting Ass 2 and then submit Ass 3 in the normal way.

Total assessment weighing = 50%. If passed, the module is credited to the student’s profile with half the normal credits.

Joining this module: option B

A student joining the module at the end of S1 would a customised formative assessment to be submitted in week 6 when other students are submitting Ass 2 and then submit a customised Ass 3 in week 14 and this be weighted 50% instead of the usual 40%.

Total assessment weighing = 50%. If passed, the module is credited to the student’s profile with half the normal credits.

NB In both A and B above, care needs to be taken that the student is not unduly disadvantaged for missing teaching from semester 1.

The above options are suggestions for how programmes might go about customising assessments to enable students to complete 50% of the module’s assessment. Programmes are welcome to vary them to suit local circumstances, assessment types, timing of events etc. In all cases, programmes shall ensure that all students affected are treated consistently and fairly.

Collective Responsibility

3.9 In all cases, the Programme Leader for the Subject/Programme being left and the Programme Leader for the Subject/Programme being joined AND the student are all responsible for ensuring that they are aware of how the transfer is being managed and that the process will ensure that the student will complete the requisite number of credits for the academic year. By signing the form, the staff
members and the student acknowledge that they understand the process and have taken steps to ensure the transfer will enable the students to complete their academic commitments.

3.10 If these procedures are not followed, students are unlikely to achieve sufficient credits and, if this happens, students will not be able to proceed with their studies or graduate without being required to repeat study.
APPENDIX 4  SETTING WORD LIMITS AND PENALTIES

Setting Word Limits with Penalties is Optional

4.1 Word counts for assessments are normally defined by programmes in the individual Module Descriptions contained in the Programme’s Definitive Document or in the Programme or Module Handbook. A word count is a guide to students and staff about what is expected for each assessment.

4.2 Word counts are not intended to be used as word limits and therefore, there is no University-wide policy for penalising students who undershoot or exceed word counts. If programmes wish to set a word limit, then they are required to follow these Regulations.

4.3 The Programme/Module Leader shall make the word limit and penalties clear to students:
   a) by verbally informing the students when discussing assessments;
   b) by including details in the Module and/or Programme Handbook.

4.4 Programmes may set their own penalties for equivalent infringements of time-limited or other forms of assessments e.g. for presentations or performances, see paragraph 4.9 below for some examples. In such cases, the Module and/or Programme Handbook shall specify these in the marking criteria for those assessments.

Calculating the number of words

4.5 The Module and/or Programme Handbook shall specify the method of calculating the number of words for assessments and shall specify what must be included and excluded.

4.6 The following is an example of how this might be expressed only:

   Included in the word count:
   a) every word from the introduction to the conclusion, including headings;
   b) quotations included in the body of the text (see also f) below);
   c) in-line references;

   Excluded in the word count:
   d) title pages;
   e) abstracts;
   f) indented quotations of 3 lines or more;
   g) bibliographies;
   h) list of references;
   i) footnotes/endnotes, unless excessive;
   j) appendices (which might be confined to diagrams, tables, maps, and visual images and would normally be no more than half the size of the main work);
   k) original diagrams, graphs, images etc (if included would normally be considered as equivalent to a ½ page of text regardless of their size ie approximately 100 words, regardless of font size.)

Specifying Penalties

4.7 The Module and/or Programme Handbook shall state in the assessment criteria for each assessment whether penalties shall be imposed for exceeding and/or undershooting word limits and, where penalties will apply, must include the details of penalties:

   a) applying to submissions for substantive marks;
   b) applying to submissions for a capped mark;
   c) applying to submissions for modules graded pass/fail only;
d) whether deductions could result in the overall mark dropping below a pass;

4.8 The following infringements could incur a marking penalty:
   a) any excess and/or deficiency;
   b) an excess of 10% or more of the word limit, with no penalty for undershooting the word limit;
   c) an excess or deficiency of 10% or more of the word limit;
   d) an escalating penalty scale for greater excesses only or for greater excesses or deficiencies;
   e) omitting or recording the wrong word count.

4.9 Penalties include:
   a) where any excess is penalised, this could mean that work beyond the word limit would not be marked (although it could receive feedback);
   b) a percentage of the raw score deducted, e.g. 10% for a lesser infringement and 20% for a greater infringement;
   c) result capped to the minimum pass mark;
   d) automatic fail for second attempts and/or modules graded pass/fail only;
   e) omission of the word count from the cover sheet could mean work is not accepted for marking;
   f) significantly incorrect word count recorded on the cover sheet could mean work capped at minimum pass mark;

4.10 Penalties for time-limited forms of assessment (e.g. presentations or performances) could include:
   a) markers could cease marking once the limit is exceed (although they could still provide feedback);
   b) a percentage of the raw score deducted, e.g. 10% for a short, defined infringement and 20% for a long defined infringement;
   c) result capped to the minimum pass mark;
   d) automatic fail for second attempts and/or modules graded pass/fail only.

**Word Count Declarations**

4.11 Staff shall check the declared word count on the cover sheet against the word limit specified for that assessment: where the word count exceeds the specified word limit, the appropriate penalty shall be applied.

4.12 Word count declarations shall be checked where it appears to markers that the word limit for the assessment has been breached; in addition some assessments should be randomly selected for testing. Where an assessment is selected for testing an electronic version in Microsoft Word format shall be supplied if requested and the word count shall be checked using the latest version of Microsoft Word installed on the University computing network.

**Second Attempts following Word Limit Penalties**

4.13 A second attempt shall not be permitted where assessments are subject to a word limit penalty, which reduces the mark to the minimum pass mark (ie 40% for L3 – 6 work / 50% for L7/8 work).

4.14 A second attempt shall be permitted where assessments fail to meet the assessment criteria for a pass at the first attempt and the failure includes a word limit penalty.
APPENDIX 5  SUBMISSION PROCESSES FLOWCHART

5.1 This flow chart illustrates the process described in Section B of these Regulations relating to first and second attempts, including late submission, for all assessments for modules taken at the first attempt or retaken where students’ repeat study or trail fails.

5.2 The one week period refers to five working days when the University is open and may, therefore, include student vacation periods.
APPENDIX 6  MARKING AND MODERATION PROCESSES

Marking Policy

6.1 The requirements below are a minimum level of acceptable practice, but Departments/Programmes may moderate more than the minimum required if they feel it appropriate e.g. when running a new module for the first time; when required by a professional body; or if an external examiner has expressed particular concern about the grading of a module.

6.2 Where possible all assessments will be marked anonymously.

Definitions

6.3 The following terms relating to marking are defined by the University as follows:

a) Moderation refers to the overall process by which the University confirms that an assessment has been marked in line with its expressed aims and learning outcomes and the assessment criteria. It provides assurance for students of fairness and equality of marking and assures internal consistency of assessment within a module and a programme.

b) Single marking refers to the process where assessments are marked once by a single marker who may be one of a team of markers.

c) Double marking refers to the process by which an entire set of assessments is marked independently by two markers without knowledge of each other’s grades before coming together to seek agreement.

d) Moderating refers to the process by which a sample of marked work is reviewed by a moderator with sight of the first mark.

e) Third marking refers to the process of adjudication when two Double markers cannot agree, in which case a third internal marker is employed. The third marker should be an appropriate and experienced member of staff designated by the Programme Leader.

f) Anonymous marking refers to the marking of student work, which is not identified by name at the time of marking.

Process of Moderation

6.4 The first marker(s) shall normally be a member of the teaching team for the module or first supervisor for the project.

6.5 The moderator shall normally be a member of the teaching team for the module, or as designated by the Programme Leader. The role of the moderator is to ensure the appropriateness of the marking, taking into account consistency, fairness, application of the agreed marking scheme and academic standards. A moderator may not change marks.

6.6 To ensure that there is no bias in the marking procedures, all assessments submitted by a student shall normally be marked and, where required, moderated by someone who does not have a personal interest, involvement or relationship with a student being assessed. In cases where this is not possible, the following procedure shall be followed:

a) single marked assessment: the student’s assessment shall be first marked in the normal way but shall then be moderated by a moderator chosen by the Programme Leader or the Head of Department, where the Programme Leader has a personal link with the student;
b) moderated assessment: the student’s assessment shall be included in the sample if the first marker has the personal link to the student or excluded from the sample where the moderator has a personal link to the student;

C) double-marked: the student’s assessment shall be marked in the normal way

6.7 All assessments shall have clearly defined assessment criteria, as detailed in module handbooks. All markers and moderators shall have a copy of the assessment criteria and, except in the case of double marking, a full list of marks for the assessment in question (not just for the sample).

6.8 When double marking, both markers shall record their comments and signature on the assignment cover sheet (or equivalent) together with a single agreed mark.

6.9 Baseline requirements for moderation are as follows:

<table>
<thead>
<tr>
<th>Assessment type</th>
<th>Marking process</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessment at all levels which constitutes less than 20% of the module mark</td>
<td>Single marking</td>
<td>Sample: 10% of the failed assessments or a minimum of 7 failed assessments, whichever is the larger</td>
</tr>
<tr>
<td>Assessment at level 4 which constitutes 20% or more of the module mark</td>
<td>Single marking for assessments marked at 40% or above</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Moderation</td>
<td>Sample: 10% of the work submitted or a minimum of 7 pieces of work, whichever is the larger; and</td>
</tr>
<tr>
<td></td>
<td></td>
<td>must include assessments across all grade categories from failures to firsts/ distinctions. *</td>
</tr>
<tr>
<td>Assessment which is not available for post-hoc scrutiny e.g. performances,</td>
<td>Single marking with AV recording for moderation</td>
<td>Programmes may opt for double marking or moderating for the whole cohort or for a sample of at</td>
</tr>
<tr>
<td>presentations where part or all of the mark depends on the standard of</td>
<td>or for moderation purposes</td>
<td>least 10% of the total or a minimum of 7 assessments, whichever is the larger. Where a sample is</td>
</tr>
<tr>
<td>presentation or the demonstration of practical skills</td>
<td>OR</td>
<td>moderated, this must include assessments across all grade categories from failures to firsts/</td>
</tr>
<tr>
<td></td>
<td>Double marking with option for AV recording for</td>
<td>distinctions. *</td>
</tr>
<tr>
<td></td>
<td>External Examiner</td>
<td>Where AV recordings are made to aid marking, these may also be made available to External</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Examiners.</td>
</tr>
<tr>
<td>Assessment of practice modules where the theoretical assessment is linked to</td>
<td>Single marking (observation)</td>
<td>Students must be observed on separate but not necessarily successive occasions as defined in the</td>
</tr>
<tr>
<td>practice and where the practice element must meet the competency standard set</td>
<td></td>
<td>Definitive Document for the programme and communicated to the student via the Programme Handbook</td>
</tr>
<tr>
<td>by professional statutory bodies</td>
<td></td>
<td>or equivalent.</td>
</tr>
<tr>
<td>The Extended Independent</td>
<td>Double marking</td>
<td>All assessments are marked</td>
</tr>
<tr>
<td>Assessment type</td>
<td>Marking process</td>
<td>Comments</td>
</tr>
<tr>
<td>--------------------------------------------------------------------------------</td>
<td>-----------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Study (level 6), Independent Study e.g. dissertations or equivalent at level 7</td>
<td></td>
<td>independently by two markers without knowledge of each other’s grades before coming to together to seek agreement</td>
</tr>
<tr>
<td>or for the single assessment for a module worth 30 credits or more</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Marking conducted by a member of staff with less than one year’s marking</td>
<td>Moderation</td>
<td>Sample: 10% of the work or a minimum of 7 pieces of work, whichever is the larger; and must include assessments across all grade</td>
</tr>
<tr>
<td>experience at the level in question</td>
<td></td>
<td>categories from failures to firsts/distinctions *</td>
</tr>
</tbody>
</table>

* The need to include assessments across the marking range may result in the sample size being larger than the minimum 10% or seven pieces of work.

6.10 Where first marking is completed by a team of markers, the sample seen by the moderator(s) shall include assessments marked by each of the first markers to ensure a comprehensive sample.

6.11 A sample of work is sent to External Examiners in order for them to report to the University on the soundness and fairness of the assessment process and on the standards of student achievement. External Examiners are not members of the internal examining team and will not be able to be involved in moderation. Further details may be found in the External Examiners of Taught Programmes – Policy and Procedures.

**Reconciling Marking Differences**

**Double Marking**

6.12 Once double marking has been completed, the markers should discuss any adjustments and reach a consensus before the work is returned to the students. Markers must not just split the difference when they disagree significantly. As noted in G1.4 above, all double markers shall be recorded on the cover sheet.

6.13 In cases where the Double markers cannot agree a final mark, then a third internal marker should be designated by the Programme Leader:

a) The third marker shall mark the work and may discuss the marks with the double markers before making a decision;

b) In the case of assessments unavailable for post hoc scrutiny, the third marker shall normally mediate a discussion between the first two markers in an effort to resolve the difference. But if no agreement can be reached, then the third marker shall make a decision based on the comments of the first two markers;

c) In all cases, the third marker’s decision shall be final;

d) Assessments referred for third marking shall normally be included in the sample sent to the External Examiner.

**Moderating**

6.14 If the moderator believes that individual marks within the sample are not at the correct level, the moderator shall not change the individual marks for the work, but shall liaise with the first marker(s)

---

4 Where a Programme Leader is involved in the marking process, the Head of Department shall take on this role.
with a view to the first marker(s) reviewing and adjusting the marking for the whole batch i.e. the moderator cannot recommend the first marker to review to review marks for a proportion of the batch.

6.15 If the moderator finds any systematic irregularity or over-harsh/generous marking in the marking for the sample or the cohort, the overall module profile should be discussed with the first marker(s).

6.16 If the first marker and the moderator agree that a comprehensive review is required, this shall normally be undertaken by the first marker.

6.17 If there is no agreement following discussion between first marker and the moderator, then a mediator (normally the Programme Leader or Head of Academic Department if the Programme Leader is first marker or moderator) shall conduct further exploration in an effort to resolve the difference. If an agreement still cannot be reached, then the mediator shall make a decision based on the points raised in the discussion and their decision shall be final. This shall normally result in one of the following: no action being taken; the work is reviewed by the first marker or a third marker.

6.18 The issue and its resolution shall be reported to the External Examiner, in the usual way.

6.19 In the case of approved forms of assessment, which are not available for post-hoc scrutiny, Programmes shall develop, where possible, appropriate procedures that would enable the objectives of moderation to be achieved.

6.20 Accurate and clear recording of the method and result of the reconciliation of marks shall be made available to the External Examiner to provide evidence that marking procedures have been conducted in a fair and consistent way.

**External Examiner**

6.21 If the External Examiner finds any systematic irregularity in the marking for the sample or the cohort, the overall module profile should be discussed with the Programme Leader to determine whether the assessments have been marked fairly and consistently in line with the expressed aims and learning outcomes and the assessment criteria.

**Appeals Against the Marking and/or Moderation Process**

6.22 It is important for students to understand the nature of examiners’ discretion and judgement when details of module marks are made available to them. The following provisions apply to the exercise of academic judgement in relation to the assessment process:

   a) assessment of a student’s work is a matter of judgement, not simply of computation;
   b) marks, grades and percentages are not absolute values, but symbols used by markers to communicate their judgement of different aspects of a student’s work;
   c) the academic judgements of markers cannot, in themselves, be questioned or overturned.

6.23 Students may only appeal against a mark in accordance with the criteria defined in the *Academic Appeals Regulations*. 
**APPENDIX 7 – ASSESSMENT CRITERIA**

**STATEMENT OF LEVEL:** 4 (based on sector frameworks and benchmarks)
At this level students should be working towards developing a rigorous approach to the acquisition of a broad knowledge base; employing a range of specialised skills; evaluating information using it to plan and develop investigative strategies and to determine solutions to a variety of unpredictable problems; and operating in a range of varied and specific contexts, taking responsibility and reliably with an ability to clearly structure argument/presentation of information; developing new skills in a managed environment. Presenting evaluating and interpreting qualitative/quantitative data; develop arguments and make sound judgements in line with basic principles of subject.

**GRADING DESCRIPTOR LEVEL 4 (wording in boxes A–F is to give examples of standards and evidence and should be used as a guide)**

<table>
<thead>

<th>C 60-69</th>
<th>D 50-59</th>
<th>E 40-49</th>
<th>F 30-39</th>
<th>G 0-29</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research and Enquiry Ability to identify relevant sources, evaluate, use materials and compare data in a range of forms and from diverse sources</td>
<td>Exceptional: exploration and use of significant range of relevant resources (e.g. extensive reading) exceeds expectations. Outstanding ability to compare &amp; evaluate materials using a range of techniques while demonstrating acute awareness of limitations and contradictions in data.</td>
<td>Excellent: substantial and appropriate use of range of relevant resources; widely read. Robust ability to compare and evaluate materials using a range of techniques. Student is well aware of, and can respond insightfully to, limitations and contradictions in data.</td>
<td>Very Good: thorough use of appropriate relevant resources, such as literature. Consistently able to compare and evaluate materials using a range of techniques. Student demonstrates awareness of and responds to limitations and contradictions in data.</td>
<td>Good: appropriate use of relevant resources, such as literature. Consistently able to compare and evaluate materials using appropriate techniques.</td>
<td>Satisfactory: sufficient relevant resources, such as literature, are drawn on. Student demonstrates ability to compare and evaluate materials using appropriate techniques.</td>
<td>Unsatisfactory: insufficient relevant resources, such as literature, are drawn on. Ability to compare and evaluate materials using appropriate techniques is not adequately demonstrated.</td>
<td>Poor: student has done little or no research and cannot demonstrate key aspects of research and enquiry required by this module and at this level.</td>
</tr>
<tr>
<td>Academic Skills academic conventions, structures, referencing, ability to respond to brief, according to subject requirements, communication and presentation</td>
<td>Exceptional: fulfilment of assessment brief has exceeded all expectations with regard to structure, content, style, argument, conventions.</td>
<td>Excellent: fulfilment of assessment brief with regard to structure, content, style, argument, conventions is of a high calibre.</td>
<td>Very Good: fulfilment of assessment brief has seen most relevant academic skills well applied.</td>
<td>Good: fulfilment of assessment brief has seen most relevant academic skills well applied.</td>
<td>Satisfactory: fulfilment of assessment brief has seen sufficient evidence of some relevant academic skills.</td>
<td>Unsatisfactory: the relevant academic skills have been inadequately demonstrated. Notable failure to address assessment task</td>
<td>Poor: little to no evidence of ability to employ relevant academic skills. May have failed to address assessment task completely</td>
</tr>
<tr>
<td>Subject Knowledge and Understanding Intellectual engagement, grasp of concepts, principles, key tenets of subject, theory, context, limitations</td>
<td>Exceptional: knowledge, critical evaluation, synthesis of ideas, problem-solving, grasp and application of theory all exceed expectations for task at this level. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is highly advanced, and may also be highly original and/or imaginative.</td>
<td>Excellent: knowledge, critical evaluation, synthesis of ideas, problem-solving, grasp and application of theory are all at an extremely high level. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is advanced, and may also be original and/or imaginative.</td>
<td>Very Good: knowledge, critical evaluation, synthesis of ideas, problem-solving, grasp and application of theory are strong and consistent. Analytical capability is well evidenced and conceptual understanding shows insight and grasp of wider issues/context. The work is advanced, and may also be original and/or imaginative.</td>
<td>Good: clear evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Evidence of analysis and conceptual understanding.</td>
<td>Satisfactory: sufficient evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Evidence of analysis and conceptual understanding.</td>
<td>Unsatisfactory: insufficient evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Inadequate evidence of analysis and conceptual understanding.</td>
<td>Poor: little to no understanding of subject and its context</td>
</tr>
<tr>
<td>Applied and Practical Skills Technical/professional/performative/field or lab based/digital etc. May include discipline specific skills such as creative writing</td>
<td>Exceptional: management and application of, and prowess/dexterity/capability with relevant skills exceeds expectations for the task at this level.</td>
<td>Excellent: management and application of, and prowess/dexterity/capability with relevant skills.</td>
<td>Very Good: management and application of, and prowess/dexterity/capability with relevant skills.</td>
<td>Good: management and application of, and prowess/dexterity/capability with relevant skills.</td>
<td>Satisfactory: management and application of, and prowess/dexterity/capability with relevant skills.</td>
<td>Unsatisfactory: management and application of, and prowess/dexterity/capability with relevant skills.</td>
<td>Poor: management and application of, and prowess/dexterity/capability with relevant skills</td>
</tr>
<tr>
<td>Values, Qualities and Attributes Ethical, legal, moral, subject-related and professional values, hard and soft skills; desired characteristics, behaviours and attributes e.g. self-criticality and reflection</td>
<td>Exceptional: appreciation of ethical implications and demonstration of values, qualities and attributes are all outstanding</td>
<td>Excellent: appreciation of ethical implications and demonstration of values, qualities and attributes are all outstanding</td>
<td>Very Good: appreciation of ethical implications and demonstration of values, qualities and attributes are very good</td>
<td>Good: good appreciation of ethical implications and demonstration of values, qualities and attributes</td>
<td>Satisfactory: sufficient appreciation of ethical implications and demonstration of values, qualities and attributes</td>
<td>Unsatisfactory: insufficient appreciation of ethical implications and demonstration of values, qualities and attributes</td>
<td>Poor: little to no appreciation of ethical implications and demonstration of values, qualities and attributes</td>
</tr>
</tbody>

## Assessment Regulations

At this level students are expected to generate ideas through the application and analysis of concepts at an abstract level and outside the original context of enquiry, with a command of specialised skills and the formulation of responses to well defined and abstract problems; use main methods of enquiry in the subject to analyse and evaluate information and solve problems; exercise significant judgement across a broad range of functions; and accept responsibility for determining and achieving personal and/or group outcomes. They should be able to evidence knowledge and understanding of well-established principles of their area of study and their development; understand the limits of their knowledge and how this influences their analyses. Can communicate arguments and analysis in variety of forms to specialist and non-specialist audiences.

### Research and Enquiry
**Ability to identify relevant sources, evaluate, use materials and compare data in a range of forms and from diverse sources**

- **A**: Exceptional: fulfilment of assessment brief has exceeded all expectations with regard to structure, content, style, argument, conventions. Clear, original and imaginative. Substantial and appropriate use of range of resources, such as literature, are drawn on. Ability to compare and evaluate materials using appropriate techniques is not adequately demonstrated. Satisfactory: sufficient relevant resources, such as literature, are drawn on. Ability to compared and evaluate materials using appropriate techniques is not adequately demonstrated. Unsatisfactory: insufficient relevant resources, such as literature, are drawn on. Ability to compared and evaluate materials using appropriate techniques is not adequately demonstrated. Poor: student has done little or no research and cannot demonstrate key aspects of research and enquiry required by this module and at this level.

### Academic Skills
**Academic conventions, structures, referencing, ability to respond to brief, according to subject requirements, communication and presentation**

- **A**: Exceptional: knowledge, critical evaluation, synthesis of ideas, problem-solving, grasp and application of theory all exceed expectations for task at this level. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is highly advanced, and may also be highly original and/or imaginative.
- **B**: Good: sufficient evidence of analysis and conceptual understanding. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is advanced, and may also be original and/or imaginative.
- **C**: Satisfactory: fulfilment of assessment task has seen most relevant academic skills well applied. Good: clear evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Clear evidence of analysis and conceptual understanding.
- **D**: Unsatisfactory: management and application of, and prowess/dexterity/capability with relevant skills. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **E**: Poor: management and application of, and prowess/dexterity/capability with relevant skills. 

### Subject Knowledge and Understanding
**Intelectual engagement, grasp of concepts, principles, key tenets of subject, theory, context, limitations**

- **A**: Exceptional: knowledge, critical evaluation, synthesis of ideas, problem-solving, grasp and application of theory are all at an extremely high level. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is advanced, and may also be original and/or imaginative.
- **B**: Good: sufficient evidence of analysis and conceptual understanding. Significant analytical capability, conceptual understanding is highly developed showing deep insight and grasp of wider issues/context. The work is advanced, and may also be original and/or imaginative.
- **C**: Satisfactory: fulfilment of assessment brief has seen all relevant academic skills very well applied. Good: clear evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Clear evidence of analysis and conceptual understanding.
- **D**: Unsatisfactory: management and application of, and prowess/dexterity/capability with relevant skills. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **E**: Poor: management and application of, and prowess/dexterity/capability with relevant skills.

### Applied and Practical Skills
**Technical/professional/performative/field or lab based/digital etc. May include discipline specific skills such as creative writing**

- **A**: Exceptional: management and application of, and prowess/dexterity/capability with relevant skills exceeds expectations for the task at this level. Excellent: excellent management and application of, and prowess/dexterity/capability with relevant skills.
- **B**: Good: fulfilment of assessment brief has seen all relevant academic skills very well applied. Good: clear evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Clear evidence of analysis and conceptual understanding.
- **C**: Satisfactory: fulfilment of assessment brief has seen sufficient evidence of some relevant academic skills. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **D**: Unsatisfactory: the relevant academic skills have been inadequately demonstrated. Notable failure to address assessment task. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **E**: Poor: little to no evidence of ability to employ relevant academic skills. May have failed to address assessment task completely.

### Values, Qualities and Attributes
**Ethical, legal, moral, subject-related and professional values, hard and soft skills; desired characteristics, behaviours and attributes e.g. self-criticality and reflection**

- **A**: Exceptional: appreciation of ethical implications and demonstration of values, qualities and attributes are all excellent. Good: good appreciation of ethical implications and demonstration of values, qualities and attributes. Unsatisfactory: insufficient appreciation of ethical implications and demonstration of values, qualities and attributes. Poor: little to no appreciation of ethical implications and demonstration of values, qualities and attributes.
- **B**: Satisfactory: good appreciation of ethical implications and demonstration of values, qualities and attributes. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **C**: Unsatisfactory: the relevant academic skills have been inadequately demonstrated. Notable failure to address assessment task. Good: management and application of, and prowess/dexterity/capability with relevant skills.
- **D**: Unsatisfactory: insufficient evidence of knowledge, ability to evaluate, synthesise ideas, solve problems, understand and apply theory. Inadequate evidence of analysis and conceptual understanding. Poor: management and application of, and prowess/dexterity/capability with relevant skills.
- **E**: Poor: management and application of, and prowess/dexterity/capability with relevant skills.
